Ace™

DURASILK

- Luxurious Silky Finish through SilkTech
- Superior Scrub Resistance
- High Stain Resistance through Anti-Stain Technology
- Anti-Fungal and anti-Algae technology
- Superb Beading Effect through Waterproof Technology
- Low VOC
- No Colour Rub Off
- Available in 1000+ Shades
- Uniquely Formulated In-house

About

Diamond Ace Durasilk transforms your walls into extraordinary masterpieces with its luxurious silk emulsion. Its superior stain and scrub resistance ensures that any liquid-based stain from tea, coffee, juice, ink, hand marks etc. can be easily removed so that the colours you love always stay the same. It's enhanced bio-resistant formula protects the walls from fungus and algae attacks while its Waterproof Technology allows walls to be washed frequently with No Colour Rub Off.

Ace™

WEATHER DEFENDER

- UV Resistance
- Stay Chilly Technology
- No Dirt Technology
- Water Resistance
- Anti-Fungal and Anti-Algae Technology
- Weather Intelligent Technology
- Highly Durable
- Alkali Resistant
- No Fade Technology
- Rose Fragrance
- Available in 1000+ Shades

About

Diamond Ace Weather Defender provides long-lasting protection against weather for the beautiful exterior walls of your dream house. Its enhanced formula is alkali resistant and protects against harmful UV and rain to give your walls a fresh look. It fights fungus and algae through its Anti-Fungal and Anti-Algae technology and prevents fading through its No Fade and No Dirt technology. Weather Defender also lowers the temperature of homes through its Stay Chilly technology.

Ace™

SUPER GLOSS ENAMEL

- Alkyd Based Superior Finish
- Great Washability
- Excellent Coverage
- Super Gloss Finish
- High Opacity
- Excellent Brushability
- Fantastic Durability
- Superb Adhesion

About

Diamond Ace Super Gloss Enamel is designed to provide maximum durability with its hard wearing finish. It is formulated to provide a lasting and flexible glossy finish especially suitable for wood and metal surfaces. It is a premium quality alkyd resin based enamel that provides excellent coverage, high adhesion, superior brushability and opacity for a non-fading finish.

Ace™

MATT ENAMEL

- Premium Interior Matt Enamel
- Highly Washable
- Superior Finish
- Excellent Resistance to Steam and Moisture
- Anti-Fungal and Anti-Algae Technology
- Durable and Long Lasting
- Excellent Coverage and Hiding Power
- Outstanding Brushability
- Available in 1000+ Shades

About

Diamond Ace Matt Enamel is a premium quality alkyd based paint that is stain-resistant, easily washable, and resistant to steam and moisture. Its enhanced formula repels fungus and algae to give your walls a fresh look, which makes it an ideal choice for bathrooms and kitchens. Matt Enamel produces a durable matt finish and has excellent opacity, requiring fewer coats. It is used on walls, ceilings, woodwork, metal, chipboard and hardboard.

Ace™

WATER BASED ACRYLIC PRIMER

- Anti-Fungal and Anti-Algae Technology
- Resists Water, Alkali and Salts through Water-Resistant Technology
- Seals Surface Completely
- Quick Drying Action
- Extends Durability and Topcoat Adhesion
- Hides Imperfections
- Uniquely Formulated In-house

About

Diamond Ace Acrylic Primer seals the surface completely by penetrating pores and creates a protective barrier against water, fungus and algae. It provides excellent adhesion while extending the life of the topcoat. It is used for all types of exterior and interior masonry surfaces, both new and previously decorated such as brickwork, plaster and cement. It is mostly used for previously painted surfaces but can hide imperfections on new paint as well.

Ace™

ACRYLIC PLASTIC EMULSION

- Acrylic Based Interior Finish
- Excellent Washability
- Highly Durable
- Outstanding Coverage
- Smooth Matt Finish
- Hides Imperfections
- No Colour Rub Off
- Anti-Fungal and Anti Algae technology
- Available in 1000+Shades

About

Ace Acrylic Plastic Emulsion is a highly durable, premium quality acrylic based interior emulsion paint with excellent coverage, good washability, smooth matt finish and anti-fungal properties. It is ideal for interior walls, ceilings, old and new cements, concrete, plaster, chipboard and hardboard.
